Sir:

**NOTICE OF POSSIBLE USPTO ERROR IN THE DETERMINATION OF PATENT
TERM ADJUSTMENT AND REQUEST FOR CLARIFICATION OF CALCULATION**

As required by 35 FED. REG. 56387 (September 18, 2000), the Patentee notifies the U.S. Patent and Trademark Office ("USPTO") of a possible error in the patent term adjustment set forth in the Issue Notification mailed August 22, 2007.

The determination of patent term adjustment under 35 U.S.C. § 154(b) in the Issue Notification indicates that the USPTO has determined that the patent term adjustment period for this application is 444 days. This differs from the patent term adjustment of 112 days in the determination of patent term adjustment mailed May 7, 2007. Applicant respectfully requests that the USPTO clarify how it arrived at this adjustment period. Based on the Patentee's calculation, the patent term adjustment period should be 43 days.
